January 2004
TO: THOUSAND OAKS CITY COUNCIL and PLANNING COMMISSION

We, the undersigned, respectfully request the Thousand Oaks City Council and the Planning Commission to adopt the following policy:

All lands north of the Mount Clef Ridge between the Mount Clef Ridge Open Space-COSCA properties and Wildwood Park property, also identified in the General Plan as "undevelopable" lots (LD 249) in the designated wildlife corridor between Thousand Oaks and Santa Rosa Valley (Camarillo) shall be 100% permanently reserved as open space for wildlife movement and the flourishment of sensitive, endangered native plants and native animals. This land shall remain open, natural and undeveloped as a protected wildlife corridor. All other uses shall be prohibited.

We also request the Thousand Oaks City Council to negotiate and obtain agreement with other affected parties, both public and private, to achieve such policy objectives, including the vigorous pursuit of any necessary funding to secure this described land above as 100% open space.
